### **BUILDING LOCATION AND PARKING**

We share a mini-office park with another building. As you proceed down the driveway, our building is at the rear of the property, on your left (#216). Parking for short stay visitors is alongside of our building, on your right. The entrance is directly across the driveway from the short stay visitor's parking. If that parking area is full, or if you are here for a half or full day meeting, please use the lot in front of our building (on your left as you come down the driveway, before you reach our building.) Parking spaces in this lot are marked BCBS. Do not park in the row of spaces along the driveway in front of the other building.
